

## Pre-Determined Audience Response Software

Formative and Summative Assessment

Personalised Learning Module

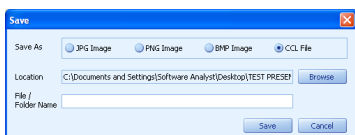

PowerPoint Integration

- Use on multi-platforms such as Mac, Linux and Windows
- Interface editor allows for customization of the corporate niche markets
- Personalised Learning Module allows participants to work at their own level and pace
- Data capture facility generates reports, graphs and charts using saved results which can automatically be uploaded to any CSV compatible programs (such as Microsoft Excel, Access, Word and Powerpoint.)
- Spontaneous or preset question format option
- Constant analysis option allows for feedback during presentations
- Text & Drop module allows participants to text in responses to questions that can be dragged and dropped onto an image or canvas area and into pre prepared PowerPoint slides
- 3D interactive gaming technology included which allows results to be presented in many different race situations
- Send student reports automatically via e-mail option
- Anonymous student/participant log in
- Ad hoc feature - so you can add students to a lesson or presentation spontaneously
- Formative and summative assessment

### 'Text & Drop' feature

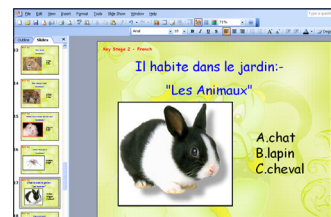

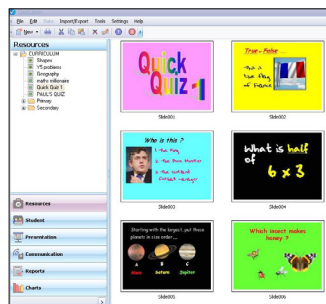

Text & Drop feature allows you to use prepared PowerPoint slides or images and text in answers then drag them onto the images, ideal for diagrams or maps. The colour and size of dropped answers can be changed then locked into place.

Text & Drop files can be saved as JPG, PNG, BMP or CCL files. CCL files are ClassComm files that allow for previous Text & Drop sessions to be re-run with the same text objects.

### PowerPoint integration

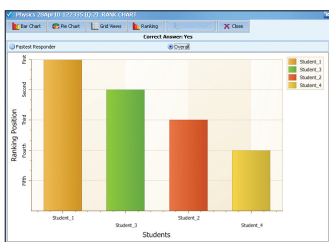

Prepared PowerPoint questions for Primary and Secondary education.

ClassComm software works with PowerPoint so there is no need to learn a new software which gives more time for teaching. Use pre prepared PowerPoint slides to save even more time!

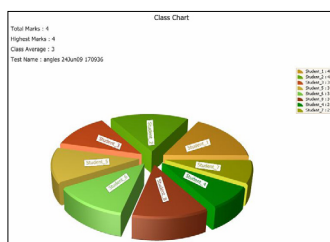

### Personalised Learning

Student	Q1	Q2	Q3	Q4	Q5	Q6	Current Status
Student_1	1	2	3	4	5	6	17%
Student_2	1	2	3	4	5	6	0%
Student_3	1	2	3	4	5	6	0%
Student_4	1	2	3	4	5	6	0%
Student_5	1	2	3	4	5	6	17%
Student_6	1	2	3	4	5	6	17%
Student_7	1	2	3	4	5	6	0%
Student_8	1	2	3	4	5	6	0%

The NEW Personalised Learning feature allows students to answer questions at their own pace. The NEW feature of the Personalised Learning module lets students to go back into an answer and edit it before ending the test.
