

# GENEE **vision**<sup>®</sup> 150

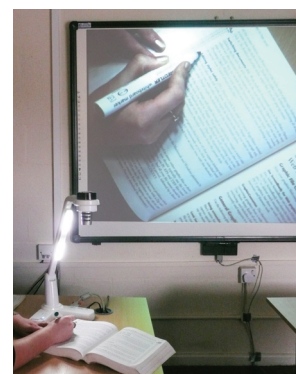

## Budget solution

This visual presenter presentation box with its built in light and digital camera delivers exceptional image and text clarity. It allows the negatives of a photo to be viewed as positives. Ideal for professionals such as doctors, medical students or scientists who may require developed photos whilst working in a clinic, hospital or science lab.

The **Genee Vision 150**, for those seeking value for money and no compromise on performance.

- Now with USB!
- Auto focusing
- 4x optical zoom, 10x digital zoom, 40x Total
- Turn negative images into colour instantly
- Ideal for sharing work and show and tell
- 2 mega pixel camera
