- Automatic adjusting lens for seamless short throw/long throw transition
- One touch image rotation for easy full page viewing

Connection Panel

The **NEW Genee Vision 9100** has the latest in lens technology featuring Genee Diamond Vision clarity to capture high quality, crystal clear images. Images captured directly onto the visualiser are viewed in a thumbnail window allowing you to scroll through and select your required image. The **Genee Vision 9100** comes with a remote control which has a superb **NEW** rotation feature which allows you to rotate an image from the back of a room, ideal for recording presentations or training/company policies.

The **Genee Vision 9100** can auto focus on near and far objects without the need to remove or change the items manually.
